

The WAXIE® Dry Vapor Smoke & Odor Eliminator

Eliminating Severe Odors, Including Tobacco Smoke & Cannabis Odor

The WAXIE® Dry Vapor Smoke & Odor Eliminator was developed to provide a “dry” dispersion delivery system for the efficient and economical application of Fresh Wave IAQ® Air & Surface Odor Eliminator or Fresh Wave IAQ Smoke Away Air & Fabric Liquid and Solsta 640.

HOW DOES IT WORK WITHOUT MASKING AGENTS?

The WAXIE Dry Vapor Smoke & Odor Eliminator dispenses minute size molecules into the air. These minute molecules enhance the odor elimination characteristics of Fresh Wave IAQ products in two ways:

1. The smaller the droplet, the greater the degree of penetration
2. The smaller the droplets, the more product surface area there is to make contact with and eliminate the odor

These minute, dry vapor particles are able to eliminate malodors in the air and on surfaces while also penetrating deep into draperies, upholstery, bedding, wallpaper, carpets and other surfaces.

FEATURES/BENEFITS

- **Broad Spectrum Odor Elimination:** smoke, soot, mildew, trauma scene, skunk, dead rodents, chemical, sewage, fuel oil, food (ex: curry), vomit, feces & urine.
- **Mobile:** easily moves between application sites. Equipped with swiveling casters as well as side-mounted “lift” handles for moving in and out of transportation vehicles.
- **Easy to Use & Operate:** remove the fill tube cap and fill the tank with a maximum of 2 gallons of Fresh Wave IAQ Air & Surface Liquid (RTU), Fresh Wave IAQ Smoke Away Air & Fabric Liquid or Solsta 640, plug in and turn on.
- **Safe:** the WAXIE Dry Vapor Smoke & Odor Eliminator with Fresh Wave IAQ Air & Surface and Smoke Away or Solsta 640 are safer to use than an Ozone Generator and faster than a Hydroxyl Generator. There is no need to evacuate the area being treated while the Waxie Dry Vapor Smoke & Odor Eliminator Unit is in use.

SPECIFICATIONS

Item #	579100
Dimensions	18” x 20” x 41”
Weight	58 lbs (empty)
Liquid Capacity (Max.)	2 Gal.
Output	50-60 CFM
Outlet Size	3”
Current Draw	0.6A
Power Required	115V/1P/60Hz

*Includes a 12ft power cord with cord wrap.
